

# TRIKKE

## Let your game fly !

As an owner or a player, you will want to see the TRIKKE EAGLE fleet deployed on the course. Cart golf becomes outmoded when everyone tees off and heads directly to play their next shot. Keep your head in the game when boring delays are eliminated. You are in command at all times from the deck of your EAGLE vehicle. Achieve better posture, breathing, core strength, and circulation when you're driving the EAGLE in an ergonomic upright stance. Drive right up next to the green to focus on holing out, and sustain the momentum throughout your round.
