

# RAPID **MEDICAL** RESPONSE

A rapid-response medical mobility platform for restricted-access environments

**POSI.TRON**  
**EMS**

## **Trikke Positron 72V Elite Electric. Agile. Rapid response.**

Designed to deliver rapid first medical contact and patient access in high-density and restricted-access environments – such as pedestrian zones, crowded streets, airports, campuses, and large public events – while seamlessly complementing existing EMS and ambulance operations.

- ✓ Rapid patient access
- ✓ Early intervention in high-density environments
- ✓ Effective in restricted-access areas
- ✓ Quiet, all-electric operation
- ✓ Highly maneuverable in confined spaces

### Designed for use in:

- Dense crowds & special events
- Pedestrian-only zones
- Narrow walkways, plazas & concourses
- Airports & secure venues
- College campuses & large facilities
- Multi-level structures & parking garages
- Downtown areas
